

CAPABILITY STATEMENT

Company Overview

ISCI is professional services Supply Chain and IT integrator focused on helping federal organizations manage simple and complex enterprise transformations. We support various Federal Government clients and the private sector. ISCI is widely recognized as a subject matter expert in supply chain and IT innovative solutions to enhance operational efficiencies.

ISCI has primed more than 16 awards with federal clients and teams with prime contractors looking for competitive advantage with ISCI's past performance. Since 2011, ISCI has supported more than 93 mission critical system implementations, impacting more than 46,000 government employees overseeing more than \$346 million in enterprise systems.
